The Cahen-Gregori workshop

Surface conditions

Having set up in a former kindergarten, which they entirely refurbished, the designers Nadine Cahen and Laurent Gregori are specialists in surfaces that contain meaning and sensations. Among other things, they are busy dressing the interior surfaces of the line 1 coaches in the Paris Metro, and refurbishing a street in Saint Étienne.

The Cahen-Gregori workshop has also authored a very successful Corbusier exhibition at Saint-Pierre de Firminy church. Finally, among other things, the two-person team was commissioned to set up an exhibition devoted to the Print laminates, which made such an impression during the Saint Étienne International Design Biennial 2004.
